# **EVOLUTION OF THE INTERNET**

Web 1.0 was all about fetching, and reading information. Web 1 had website consisting mainly of static pages hosted on ISP-run web servers, or free web hosting services.

Web 2.0 is all about reading, writing, creating, and interacting with the end user. It was famously called the participative social community web. Interaction and collaboration with each other are allowed by Web 2.0 in a social media dialogue as the creator of user-generated content in a virtual community.

Web 3.0 is decentralization, Al, Blockchain, machine learning. It is all about reading, writing, and owning.

Web 3.0 enables users to not only hold ownership of the content they make on existing platforms, but also give them digital assets in the platform they are distributing their content by using Blockchain and Smart Contracts.

### WHAT IS STRING ESPORTS?

String Esports is an international esports platform will host Daily Tournaments with massive prize pool across games like Call of duty, Battlegrounds Mobile India (BGMI), Valorant and many more.

String esports tournaments adopt a unique payout structure for participants. Players pay an entry fee to join the tournaments, and the prize money is distributed among the top 25% of participants, setting it apart from other esports platforms. Similar to other Fantasy style payouts like Dream11 and Draftkings.

### **Gaming Industry vs Other Industries:**

The global gaming market was valued at \$159.3 billion in 2020. This includes revenue from console games, PC games, mobile games, and esports. To put that in perspective, the music industry was valued at \$19.1 billion in 2020, while the movie industry was valued at \$41.7 billion. That means the gaming industry is making more than three times as much money as the music industry and almost four times as much as the movie industry.

String Esports organized the largest Battlegrounds Mobile India Tournament, featuring over 1,200 players, and the Free Fire India Championship, which saw participation from more than 6,000 players across India.

# **STRING VENTURES**

# Investing in the Future of Web 3.0

According to Crunchbase, 23,800 Web3.0 companies received funding totaling \$97 billion USD, and 98 of these companies achieved unicorn status.

**Top Web3.0 Venture firms:** 

- Pantera Captial
- Jump Trading
- Coinbase Ventures

WinterMute Web3.0 Investor & Market Making Company raised 200\$ Million USD from Tecent at \$2 Billion USD Valuation.

# **OUR INVESTMENT AREAS**

### **Venture Stake**

Leveraging our expertise to pinpoint the best market opportunities, we acquire stakes in companies creating innovative products and services for Web 3.0.

### **Early Stage Tokens**

We invest in early-stage Web3.0 projects, acquire stake in the form of digital assets and offer liquidity and marketing services for their digital assets.

### **Beyond Investment**

String will also assist in token distribution through its diverse community, create markets for tokens using our Automated Market Making bots, and provide liquidity for projects.

### ROAD AHEAD FOR STRING METAVERSE [DEPIN]

Decentralized Infrastructure for Scalability: By tapping into the collective computational power of our community, we can support decentralized infrastructure projects that drive scalable and efficient networks.

GPU Shortages and the Need for DePIN: India alone requires 200,000 GPUs, while only 5,000 have been allocated by Nvidia. DePIN offers a game-changing approach by enabling decentralized communities to share their computational power, unlocking new possibilities for resource distribution.

Earning Potential for Users: Participants can contribute their GPUs and CPUs to the network and earn digital assets in return, creating new opportunities for decentralized earning and participation.

Environmental Impact: Traditional data centers will no longer be the optimal solution for computation needs. DePIN will reduce carbon emissions by utilizing distributed, decentralized power sources from the community.

Massive Market Potential: The DePIN addressable market is currently valued at \$2.2 trillion, with projections to grow to \$3.5 trillion by 2028.
